

# **Support to Strengthening of the National Food Security Information System**

**S. Sanginov**

# JUSTIFICATION

Tajikistan presently lacks a coherent and strategic approach to tackling food security issues based on reliable and easily accessible information on food security. Despite the proclaimed priority accorded to food security in the national development strategy and several decrees on food security there is no monitoring and information system to assess the national food security situation and its evolution. This makes the identification of the causes and extent of malnutrition and undernourishment in the country particularly difficult. It also hinders the possibility of developing coherent policy measures and proper evaluation of their results and impacts.

# OUTCOME

National food security policy and strategy development process that is based on an integrated food security information system with a market information service that supports the development of the private sector agriculture and trade.

# OUTPUT

- Seven mutually reinforcing outputs that improve the quality of food security information and facilitate its use in decision-making by strengthening human and institutional capacities are planned.

# Output 3

- Output focuses on improving the capacities of the Ministry of Agriculture, Statistics Agency n (SA) and the Agency for Hydro Meteorology to forecast crop production and conduct crop and food security assessments. The crop forecasts and assessments will be integrated with information provided by the SSC and the World Food Programme and other information providers

# FIELD SURVEY CALENDAR

## SUGD REGION

Region & District	Month							Total
	June							
B. Qafurov	8-10							3
Conibodom		11-13						3
Qonchi			14-16					3
Zafarobod				17-19				3
Istaravshan					20-22			3
Shahriston						23-25		3
Panjakent							27-29	3

# Western Khatlon

Region & District	Months							Total
	June							
Panj	8-10							3
Rumi		11-13						3
Shaartus			14-16					3
Vakhsh				17-19				3
Bokhtar					20-22			2
Khuroson						23-25		3
Yavan							26-28	3

# Eastern Khatlon

Region & District	Month							Total
	June							
Danqara	8-10							3
Vose		11-13						3
Khamadoni			14-16					3
Farkhor				17-19				3
